

YOUR VISION... WE MAKE IT HAPPEN.

TST Roofing & Glazing/TDSC is an SBA 8(a) Certified, Service-Disabled Veteran-Owned and Minority Owned Small Business providing leadership, management and hands-on field capability in roofing, glazing, civil utility and general construction.

We have a strong office team of construction professionals, ranging from estimators and engineers to career Project Managers who work alongside some of the greatest administration staff. We also employ an impressive "in-house team" of 70+ field employees that includes superintendents, SSHO's, roofers, glazers, pipelayers and skilled laborers that are on the company payroll and are fully invested in the company that they work for. Our aim on any project is to become a strong part of the contracting team from the conceptual phase through close-out; to help facilitate a joint solution that is efficient, economical, and results in a quality end product with which the customer and the contracting agency are fully satisfied with.

We are a Class A Contractor with a wealth of experience in both government contracting/construction and commercial construction projects. As a turnkey contractor, we have worked with agencies ranging from NAVFAC to the USACE to Army MICCs, as well as City Agencies, School Divisions, etc. Whatever your vision is... we can make it happen!
